

Release 143

Email accounts

Dear CDA members,

It has come to our attention that several of our CDA members email accounts are being hacked. Please be very careful and do not open any suspicious emails. Bea Abshear, one of our PSR is one of the members that had her email hacked. Please know she is NOT asking anyone for Amazon cards or anything else and is very safe up in Sonoma County with her family. They have taken all her contact information so she is worried her friends might become a victim of these hackers.

Thank you,

Sheri Kanagawa  
State CDA Secretary
